

## BULBS AND WILDFLOWERS AT BROCKLANDS

At Brocklands we only use native trees and plants. Increasingly, families want to be involved in planting flowers on graves themselves and so in response to this we have put together the following wildflower bulb and plant options. All the plants come from a specialist native nursery in Northern England.

If you wish to pay by credit/debit card, or by bacs transfer please ring us on 01729 840102, or email: [info@brocklands.co.uk](mailto:info@brocklands.co.uk).  
Alternatively you may order by letter with an appropriate cheque.

### Wildflower Bulb Options

These are available in lots of 10.

The prices are for 10 bulbs and any combination of these may be ordered.

**English Bluebell** - *Hyacinthoides non-scripta* **£4.70**
